Description

Precondition: The website <https://gb.ecco.com/> is opened. The keyboard is used for navigation. The main page is opened.

Steps to reproduce:

1. Press the Tab key ten times to navigate to the “Search“ field.
2. Look at the field with address of active link
3. Press Tab key one more time.
4. Press Enter key.
5. Look at the “Search“ field.
6. Look at the field with address of active link
7. Pay attention to the “Search“ icon.

Actual result: The active link is not displayed in the field with address of active link after pressing the Tab key and selecting the search option.

Expected result: The active link is displayed in the field with address of active link after pressing the Tab key and selecting the corresponding option.

Additional information: Windows 10, Chrom 116.0.5845.96.
